To be added

Funding acknowledgement

The authors would like to thank Teesside University and the National Health Service Workforce Confederation (former North East Strategic Health Authority) for funding the research.

Ethical Approval details:

Study title:

A feasibility study to develop and test a Cultural Health Check (CHC) toolkit designed to assist healthcare workers and organisations in the provision of

**safe, compassionate and dignified care
for older people.**

REC reference: 13/NE/0358

IRAS project ID: 134684

Acknowledgements

We would like to thank the National Health Service trusts, wards and staff for your support and time to participate in the research. Furthermore to the clinical locality leads for their engagement, support and enthusiasm for the research. We would not have been able to complete the research without their continued support during the research process. Thank you also to all members both locally and nationally of the Cultural Health Check Steering Group. Finally, thank you to The Schwartz Center for Compassionate Healthcare for its kind permission to adapt the validated Schwartz Center Compassionate Care Scale™ devised by Beth A Lown MD, Associate Professor of Medicine, Harvard Medical School and Medical Director, The Schwartzn Center for Compassionate Healthcare, 205 Portland Street, Boston, MA 02114 (Lown, et al 2011) used in Phase 2 of the mentioned larger feasibility study.
